

Instructions for issuing a TTM Bank virtual card

For online payments, the TTM virtual card is used just like any other card. In your TTM Bank personal account, you can find your card number, its expiration date, and CVV code for online purchases or connecting your card to various services and applications.

For contactless payments, the card can be added to Apple Pay. For Android phone users, the cards will be added to Google Play in the first quarter of 2021.

1. Go to tmbank.com and click 'Log in'

2. Log in to your account.

3. In the next window, we see a list of your cards and orders and their statuses.

Click 'Order a virtual card'.

4. Fill in your personal data in English, as in your document, agree to the User Agreement and click “Order”

The screenshot shows the 'Order virtual card' form. On the left is a sidebar with navigation options: ORDERS, TRANSACTIONS, CRYPTO TRANSACTIONS, and SETTINGS. The main content area is titled 'Order virtual card' and includes a card image, a table with card details, and a 'Personal Information' section with input fields for first name, last name, and phone. At the bottom, there is a checkbox for 'I agree to terms of use', a green 'Order' button, and a chat icon.

10. Pass KYC procedure (to do this, you need to stand in front of the camera — your face must be clearly visible — and keep on approaching until the system recognizes your face and approves the procedure)

Identify yourself

Press "Start" button to proceed and follow the on-screen instructions. Your face should be clearly seen, not pixelated and well lit

START

11. If the procedure is successful, you will see the following image:

12. Next, select the document, **passport**, the data from which you used earlier in point 8.

Select the document

13. After that, the camera will turn on again — take a photo of the document's spread so that **the page with the photo is visible!** You do not need to take a photo of the entire spread (two pages of the passport)!
